

MISSION – REACH

Captain's Report

December 2012

Mission Reach continues to make progress on a number of concerns in the district. Officers have been working closely with Sgt Ching #1133 to effectively address these issues. Here are some of the goals we have reached in December:

1. We are working with SF Rec & Park directly on the redesign and construction of "Mission Dolores Park". This cooperative relationship will allow us to incorporate key public safety decisions, such as additional lighting and reduced foliage for better visibility.
2. DPW continues to assist us every 1st & 3rd Wednesday of the month. This has made a large impact on blight in the district.
3. We are working with Sgt Haggett from Co K to eradicate the preponderance of RV's in the district, and have established a "RV Log" to track these vehicles.
4. MTA has installed "No Parking from 10pm to 6am" signs on several streets. We have requested additional signage as it has successfully discouraged vehicular lodging.
5. We are working with Ted Martin from CHP to address homeless encampments on freeway overpasses & byways.
6. We have been working with Officer Friedman on the new Mission Station website. Mission Reach now has a page of resources outlining available services. We also have a direct E-mail enabling citizens to contact us with concerns or issues in the district. We directly respond to each e-mail and phone call. We have had very positive feedback from everyone contacted who appreciates that their issue or concern was heard.
